

The Research Experience for Undergraduates Program

*The 2011-2012 Information
Packet and Application*

Research Assistantships

Faculty members, in order to qualify for funding for their research, submit descriptions of research projects for which they seek assistance and may identify students who they wish to include as assistants. When applying for a research assistantship, students will receive a list of projects that faculty members are working on at the time of application. Applicants will choose to apply for specific assistantships based on the particular project and faculty member. Ultimately, faculty members make the final decisions regarding which applicant(s) to include in assisting their research. Students will receive an hourly wage based on the time and nature of the work.

The duties of the student must be definable and substantive rather than menial. Examples of tasks might include running statistical analyses, administrating questionnaires, collecting data, or conducting library research. When submitting the proposal, faculty members must identify the research, the expectations from the students and the expected dissemination of that research (ex. Journal article, conference presentation). Students should be encouraged to participate in the dissemination of the research, perhaps participating in an SB research symposium to present the work. Students involved in these projects may not receive course credit.

Eligibility:

- Freshman, sophomore, junior, or senior status in the School of Business
- Minimum GPA of 3.0

Requirements at conclusion, for the student and faculty advisor:

- Provide a short write-up of the project and photos of the student and faculty participants for the promotion of the GWSB Undergraduate REU Program.
- Provide a research report, and upon request, make a presentation as part of an undergraduate research symposium.

Support:

- Pay rate will range from \$8-12 per hour, depending on the nature/complexity of the work demanded
- Payment for up to 200 hours of work on a research project

Major-Concentration

Minor(s) - Concentration

List Previous Research Experiences or Activities (If any):

Please attach a personal statement and discuss why you would like to be a part of one of the REU programs in no more than 500 words.

Please attach your resume as part of this application.

Research Assistantship- When applying for a research assistantship, students will receive a list of projects that faculty members are working on at the time of application. Applicants will choose to apply for specific assistantships based on the particular project and faculty member. Ultimately, faculty members make the final decisions regarding which applicant(s) to include in assisting their research. Students will receive an hourly wage based on the time and nature of the work. Please see the information packet received with this application for more detailed information about research assistantships.

Please specify and rank the research projects that interest you the most, along with the corresponding faculty members from the list of current research opportunities provided with this application.

Rank	Title of the Project	Faculty Member(s)
1		
2		
3		
4		
5		

Commitment and Signature

I certify that all the information in this application packet is complete and accurate to the best of my knowledge. I understand that the submission of false information may be sufficient for denial of admission to the REU program.

Upon acceptance, into the GWSB REU program, I will fully participate, work, and abide by the rules of my specific program throughout the entire session from the starting date to the end of the program. Failure to do so may be sufficient cause for the GWSB REU Program to freeze or cease the payment of my salary, stipend, or funding or terminate my participation in the program.
