

ISSUES AND TRENDS IN *Regulatory Science*

THE GEORGE
WASHINGTON
UNIVERSITY

WASHINGTON, DC

SUMMER INSTITUTE

Regulatory Science Summer Institute

This program explores how innovative drugs and medical devices are developed and regulated. You will visit regulatory agencies such as the Food and Drug Administration (FDA) and the National Institutes of Health (NIH). You will meet with government decision-makers who control access to the market, and learn from policy experts and thought leaders of the ramifications of proposed regulatory initiatives.

This institute is an international, multi-disciplinary program organized through collaborations between the George Washington University (GW) School of Medicine and Health Sciences, the GW Law School, and the European Center of Pharmaceutical Medicine (ECPM) at the University of Basel, Switzerland.

This unique opportunity will allow you to network with some of the brightest minds in the sector and discuss the latest regulatory issues and trends. The Institute will cover key topics and provide you an unrivaled networking opportunity.
