SPECIALIZED MASTER’S PROGRAMS—

In the heart of one of the most dynamic and influential cities in the world, the GW School of Business (GWSB) puts you in touch with the power to challenge ideas, asks you to look ahead, and prepares you to lead the way.

Our graduate programs not only ground students in theory and research, but also connect them to the realities of their profession. Through theoretical and applied learning, our programs combine curriculum from accounting, finance, project management, and other traditional business concentrations with industry specific knowledge. You will gain experience on and off campus through laboratory work, classroom-based courses, and online classes, and be given access to a large number of networking opportunities through GWSB’s alumni and student organizations.

Because these days, the last thing any of us should do is conduct business as usual.

YOUR FRIENDS CALL THEM POLICY MAKERS AND INNOVATORS.

WE CALL THEM "PROFESSORS."
Washington, D.C. is a hotbed for dynamic entrepreneurship, arts and culture, fine dining, and the legions of ambitious young people who are driving it all forward. D.C. is an amazing place to learn about business, and to conduct it. But don’t just take our word for it. Consider the facts:

The nation’s capital has always been a place where life-changing decisions are made. Now, with a cross-section of the nation’s best human capital and a cosmopolitan vibe offering countless outlets for growth, opportunity, culture, history, recreation, sports, and nightlife, D.C. is where even more people are coming to make their future.

**WASHINGTON IS ALL ABOUT THE FUTURE. AND THE REST IS HISTORY.**

WASHINGTON IS ALL ABOUT THE FUTURE. AND THE REST IS HISTORY.
In the 21st century, accountancy is an integral function of every industry. Our Master of Accountancy (MACCY) program prepares students to enter vibrant industries and enterprises. From fighting terrorism with the FBI or corporate corruption with the SEC to helping organizations navigate an increasingly complex tangle of tax regulations, accountants manage the financial operations of business and of government. Whether you’re interested in audit, tax, management, or forensic accounting, the GW School of Business MACCY prepares you for the professional certification as a CPA and for a successful accounting career.

**CAREER OPPORTUNITIES**

GW School of Business MACCY students and graduates are employed by many major corporations, accounting organizations, and U.S. government agencies.

**EMPLOYERS**

- Deloitte
- Ernst & Young
- FBI
- GAO
- IFC
- IMF
- IRS
- KPMG
- Peace Corps
- PricewaterhouseCoopers
- Red Cross
- SEC
- U.S. Treasury Department
- World Bank

**QUALIFICATIONS FOR ADMISSION**

Admission to the Master of Accountancy program is competitive. Applicants must present a bachelor’s degree from a regionally accredited college or university and meet the entrance requirements of the School of Business. Prior study in accounting is not required.

**DURATION**

- Full-time: 9-12 MONTHS
- Part-time: 21-48 MONTHS

**CURRICULUM**

**CORE COURSES**

- Cases in Management Accounting I
- Cases in Management Accounting II
- Intermediate Accounting I
- Intermediate Accounting II
- Contemporary Auditing Theory
- Finance

**ELECTIVES**

Students complete nine credits of graduate-level courses in the Department of Accountancy and six credits of graduate-level courses in the School of Business or other GW graduate school, with approval from the academic or faculty director.
Launched in fall 2013, GWSB’s MS in Business Analytics (MSBA) is innovative in its academic methodology and inspiring in its vision. Our program addresses the rapidly growing need for business analytics. Our graduates harness the power of data through descriptive, predictive, and prescriptive methodologies.

Through statistical and operations analysis, you will make informed decisions and envision new possibilities for any organization. You will develop skills and be trained to work in data-rich environments. By gaining knowledge in technical business applications and analytics strategy, you will bring together information technology and data sciences to become a data-driven decision maker.

Qualifications for Admission
For admission into the Business Analytics program, applicants must have a bachelor’s degree from a regionally accredited college or university showing strong academic performance and have demonstrated professional interest in data science applied to business.

Successful applicants should have taken and obtained a B or higher in an undergraduate or graduate statistics course within the last 5 years, be able to demonstrate regular use of statistics in a current or past professional position, or be able to demonstrate an adequate understanding of statistics in another way.

In general, students should be able to demonstrate regular use of mathematics principles and methods and an understanding of calculus and basic linear algebra. Applicants should have taken and obtained a B or higher in undergraduate or graduate level calculus classes, including Calculus I (MATH1231) and Calculus II (equivalent to MATH1232). In addition, students are expected to have had some academic exposure to topics in linear algebra and finite math (equivalent to MATH1051).

Applicants should be able to demonstrate adequate exposure to and understanding of basic computer programming and software principles.

* Applicants may satisfy the above prerequisites through an online offering such as Coursera.

Curriculum
Consulting for Analytics
Stochastic Foundations: Probability Models
Statistics for Analytics I
Optimization Methods & Applications
Programming for Analytics
Data Management
BA Skills Workshop
Data Mining
Time Series Forecasting for Analytics
Statistics for Analytics II
Decision & Risk Analytics
BA Practicum
Electives (in both spring and summer)

We continue to refine our curriculum to provide best practices in descriptive, predictive, and prescriptive analytics.

Durations
Accelerated Full-time: 12 MONTHS
Part-time: 24 MONTHS
Full-time: 16 MONTHS

Career Opportunities

The Master of Science in Finance (MSF) affords students a unique opportunity to expand their education in the field of finance. It combines the finest of both programs in financial engineering and master's in finance. With today's job market, the demand is shifting towards having a quantitative background with an ability to understand financial markets, policies, and strategies.

Through applied research and modeling, students learn econometrics using various large professional databases and computer software packages. They also explore the international and regulatory dimensions of finance, focusing on risk management, financial engineering, commercial and investment banking, corporate finance, real estate, and portfolio analysis and management.

CAREER OPPORTUNITIES

GWU MSF students and graduates are employed by many major corporations, consulting firms, government agencies, international organizations, and tech giants.

Managing government spending is big business. In the U.S., public procurement spending equals more than $1 trillion annually. Government procurement policies and practices face intense scrutiny from Congress, state legislatures, industry, the media, and the public.

The Master of Science in Government Contracts (MSGC) is an interdisciplinary degree that provides the knowledge, leadership, and managerial skills needed to navigate one of the most challenging and interesting industries. This unique program combines the mastery of government contracts from the Law School with a core business education from the School of Business.

**CAREER OPPORTUNITIES**

Admission to the MS in Government Contracts is competitive. Applicants must hold a bachelor’s degree from a regionally accredited college or university. They are also required to have at least three years of experience in the field of federal acquisition/government contracting.

The MSGC program can create a custom academic plan that meets individual students’ career needs and professional goals. The majority of students in this program work full-time and take classes on a part-time basis. Students have five years to complete this program, but it can be done in as few as 24 months.

**CURRICULUM**

The MS program in Government Contracts offers an innovative curriculum that combines classes in core business principles with government procurement law courses.
The Master of Human Resource Management (MHRM) provides graduates with the knowledge and skills needed to excel in talent management acquisition.

Whether you are just starting out in your HR career or are a seasoned professional, this degree benefits anyone interested in understanding the critical role of managing human capital. Students learn the latest HR theories and proven practices. Special topics include diversity and inclusion, change management, leadership, and employee development. Taught by expert professionals and industry-leading researchers, students learn team leadership, leadership development, and human performance management.

CAREER OPPORTUNITIES
GWISB MHRM graduates learn the knowledge and skills needed for a successful career in the growing field of talent acquisition.

EMPLOYERS
This new program will prepare graduates for an executive-level human resource management career. A GWISB Master of Human Resource Management degree lets employers know that you have the necessary education and training to excel in this very much in-demand profession.

QUALIFICATIONS FOR ADMISSION
Admission to the Master of Human Resource Management program is competitive. Applicants must present a bachelor’s degree from a regionally accredited college or university and meet the entrance requirements.

The Master of Science in Information Systems Technology (MSIST) is teaching technology for today and management skills for tomorrow.

The MSIST program, started in 1980, is at the forefront of graduate business and technology education, blending business knowledge and information systems management with core technology fundamentals. Courses are taught by full-time faculty who are experts in their fields and who impart real-world experience and insight into our challenging, innovative curriculum.

For decades, IT has revolutionized the way business is conducted. It is an integral part of all business operations no matter the size, scope, or location of the enterprise. As a result, the MSIST program consistently attracts professionals from various industries such as healthcare, consulting, business management, and the technology sector. Many hold advanced degrees (MS, MA, MBA, MD, JD, or PhD) and come from varied educational and professional backgrounds. One unifying common goal all students have is the desire to expand their knowledge of technology, management, and leadership theory and practice, and actively apply it to their careers.

QUALIFICATIONS FOR ADMISSION

Admission to the Master of Science program in Information Systems Technology is competitive. Applicants must present a bachelor’s degree from a regionally accredited college or university and meet the entrance requirements of the School of Business. The review process considers academic merit, professional experience, communication and leadership skills, and analytical competence.

Whether you’re managing a $10,000 project or a billion-dollar program, it means coordinating, communicating, scheduling, and maintaining focus. You need to have the unique ability to not only manage the small details, but also review from the macro perspective.

The Master of Science in Project Management (MSPM) blends the study of advanced project management techniques with general management principles.

The innovative, ethics-infused curriculum balances real-world practice with academic theory to develop the skills managers need to integrate complex projects, motivate people, and achieve cost-effective results. We offer courses in the evenings at our Washington, D.C. campus to help our students who work or live nearby. And for more than 15 years, we have offered the MSPM program online. This means you can pursue the degree from virtually any location in the world.

CAREER OPPORTUNITIES
GWISI MSPM students and graduates are employed by many major corporations, consulting firms, government agencies, international organizations, and tech giants.

The Master of Science in Sport Management (MSSM) program prepares graduates to excel in this rapidly expanding field. The sports industry is currently estimated to be a $500 billion business and the employment demand for trained, credentialed professionals is growing.

The GW’s MSSM is built on 25 years of industry-specific educational experience. Students regularly attend study abroad programs, including the Olympics and the World Cup, and they have the opportunity to participate in the annual Travel Events and Management in Sports (TEAMS) Conference and the Sports Industry Networking and Career conference. Graduates are hired into positions with sports media companies, sporting goods manufacturers, and professional sports franchises, leagues, and organizations.

The GW’s Master of Science program in Sport Management prepares students for executive careers in events and facility management, sports marketing, athlete representation, sports analytics, sports media, and the sporting goods industry. Students and graduates have the opportunity to work with professional teams and leagues, and with collegiate teams and athletes. Students will learn to recognize issues facing sports industry leaders. They will learn to make sound, ethical business decisions; identify expenses and revenue sources for sports organizations; and understand legal terms, operational structures, and contract clauses. Through research and data-driven analytics, you will solve problems and increase performance for sports-related businesses.

DEVELOP NEW SKILLS AND BUILD EXPERTISE WITH GRADUATE AND PROFESSIONAL CERTIFICATES

The George Washington University School of Business offers a wide variety of graduate and professional certificates. The graduate certificate program offers a flexible way for professionals to acquire new skills and knowledge or to enhance existing expertise. The certificate curriculum allows students to pursue an academic specialization that matches their personal interests or is needed for their professional development.

These certificate offerings are ideal for students who want to achieve their professional goals by learning more about a specific topic or by supplementing a graduate degree. GW’s graduate certificate programs consist of 12 credit hours of course work. To be awarded the certificate, students must complete the classes in five years, earning a 3.0 cumulative grade point average. Graduates of certificate programs are eligible for streamlined admission into a GWSB graduate degree program.

The Global MBA and Professional MBA degrees provide students with a wide variety of elective course offerings. Many of these electives are bundled together in graduate certificate offerings. This allows students to customize their degree to their specific academic and professional interests.

Students choose from more than 200 elective classes offered by GW and other GW graduate schools. Students can specialize in one or two separate graduate certificates. Define your interests and add certificate credentials to your resume to increase your internship or employment prospects.

SHORT-TERM AWAY PROGRAMS

Our short-term study away programs, ranging from one to six weeks, are taught by GW faculty or through our network of top international partner universities. We offer more than 20 in a single academic year and all courses are taught in English.

* Locations are subject to change.
The George Washington University
School of Business:

Serving Those Who
Serve The Nation

There is a special bond between the George Washington University School of Business and active duty service members and veterans. They bring leadership and experience that adds value to programs and fellow students. As a leader in business education, we provide tools and knowledge to help active duty service members and veterans excel at what's next.

Veterans & Military

Nationally recognized as a top military and veteran-friendly university, GW offers a wealth of options and benefits to students who have served, or are currently serving, in the U.S. Armed Forces.

• Named “Military Friendly” university by G.I. Jobs magazine since 2010
• Named “Best for Vets” by Military Times’ Edge magazine since 2010
• Faculty mentors with military service
• Flexibility around veteran’s schedules
• Proud participants of the Yellow Ribbon Program
• GW Veterans, a student organization that supports military-affiliated students
• Career transition coaching and support

There is a special bond between the George Washington University School of Business and active duty service members and veterans. They bring leadership and experience that adds value to programs and fellow students. As a leader in business education, we provide tools and knowledge to help active duty service members and veterans excel at what’s next.

With numerous student organizations, business-related activities and competitions, community service initiatives, and guest lectures, GWSB offers a lively, dynamic environment for learning beyond the textbook. Leading diplomats, thought leaders, and notable global figures including French president Emmanuel Macron, Supreme Court Justice Ruth Bader Ginsberg, and renowned journalist Bob Woodward urge students to get involved and be engaged.

With activities from every conceivable interest and angle (and a fully loaded fitness center to boot), you’ll find yourself constantly on the move, as well as getting ahead.

MERIT-BASED SCHOLARSHIPS

We understand just how significant an investment in an MBA is, both in time and money. That is why we make a significant investment in our students. We are excited to offer merit scholarships ranging anywhere from $10,000 to full tuition to assist deserving students in earning a GWSB degree. Active-duty personnel, veterans, or dependents of veterans may be entitled to varying educational benefits. To be eligible, veterans must have completed at least one year of active service in the U.S. Armed Forces, unless discharged under honorable conditions.

Assembling the most talented class possible is not only a long-lasting return-on-investment for you, but for everyone else as well. We cannot emphasize enough that these awards are completely merit-based and dependent on your academic profile, professional experience, and standardized test scores.

NEED-BASED FINANCIAL AID

Most student loans are based on either financial need or creditworthiness and are available only to U.S. citizens and permanent residents. GW students must frequently utilize loans such as the Federal Stafford Loan Program. Other private and federal loans are also available.

All federal loans require the Free Application for Federal Student Aid (FAFSA) form. All applications—both domestic and international—are considered for merit-based scholarships. No separate application is required.

TUITION REIMBURSEMENT

Many larger corporations, as well as the federal government, offer tuition assistance to employees pursuing graduate study. In most cases, your program of study must be related to your career field and approved by a supervisor at your organization. The Student Accounts Office accepts authorizations from third party sponsors to bill them directly. Please visit studentaccounts.gwu.edu/third-party-billing to learn more.

VETERANS & MILITARY

GWSB’s financial commitment to active duty military and veterans through generous special scholarships from the School of Business, along with financial support available from the Post 9/11 GI Bill and Yellow Ribbon Program make graduate study here attractive and affordable and can provide partial to full funding. To learn more, contact GW Office of Military and Veteran Services at veterserv@gwu.edu, and include the specific program to which you have applied in the subject line.

VISIT & ADMISSIONS INFORMATION

SCHEDULE A VISIT

To schedule a visit for the Specialized Masters, please send requests to business@gwu.edu with a copy of your resume. Please include your availability as well as your areas of academic and industry interest.

INFORMATION SESSIONS

We offer a variety of evening, Saturday, and online information sessions for all of our specialized master’s programs. Tour the School of Business, learn about our specialized master’s program and admissions requirements, and meet staff, current students, and alumni. Explore options at business.gwu.edu/info-sessions.

ADMISSIONS REQUIREMENTS

- Official GMAT or GRE score
- TOEFL, IELTS, or PTE Academic Score (international applicants)
- Official transcripts from all colleges/universities where 12 credit hours or more of coursework was taken
- Résumé
- Letters of recommendation (Most require two but MIF requires three and MPHIM and MSLCY require one)
- Statement of Purpose
- Online application with $80 non-refundable application fee

You’re Not the Only One Wisely Investing in Your Education
