## Sharing Rules

Students may share up to 9 credits of the courses listed above between the undergraduate and graduate degrees. These credits may only be used as electives in the undergraduate degree. Students must meet with a GWSB Undergraduate Advisor to determine how to best utilize the graduate courses in the undergraduate degree.

## Degree Overview

The GWSB Master of Science in Sport Management program prepares students for executive careers in events and facility management, sports marketing, athlete representation, sports analytics, sports media and the sporting goods industry, working with professional teams and leagues and in collegiate athletics. Students will learn to recognize issues facing sports industry leaders and make sound, ethical business decisions; identify revenue streams and expenses for sports organizations; understand legal terms, operational structure and contract clauses; and apply analytic and research skills to solve problems and increase performance for sports-related businesses.

*MSSM courses that are 3 credits are 14 weeks long, while courses that are 1.5 credits are 7 weeks long, offered in either the first or second half of a semester. All MSSM courses are taught in the evenings.*

*The MSSM core requirement TSTD 6251 Applied Quantitative Methods is waived for 4 + 1 students due to the statistics courses completed as part of the 4 + 1 program. This is replaced with an elective.*

## Admissions Requirements

A candidate must have at least a 3.0 GPA to be considered for admission and be in good academic standing with the University to be eligible for admission. Those with a GPA lower than a 3.0 will be required to submit a GRE or GMAT score and meet the same criteria as for the regular MS in Sport Management program.
