

### MASTER OF SCIENCE IN PROJECT MANAGEMENT APPLICATION FOR ADVANCED ACADEMIC STANDING

Master of Science in Project Management (MSPM) students may apply for Advanced Academic Standing (AAS) following acceptance into the program and submission of the Declaration of Intent and non-refundable tuition deposit. AAS allows for a student to complete fewer than the 36 credit hours required of the MSPM degree program. Students may qualify for AAS based on the following qualifications:

- A current PMP certification from the Project Management Institute (up to 3 credit hours of electives waived); or
- Previous graduate coursework completed at a regionally accredited college or university within the past 5 years that earned a grade of B or higher and is equivalent to core, non-elective courses in the MSPM program (up to 6 credit hours waived); or
- Completion of the Master's Certificate in Project Management (Master's Certificate in IT Project Management excluded) offered by ESI International within the past 5 years (up to 9 credits waived).

The maximum total number of credit hours that may be waived is 9 and is reserved for those who have completed the ESI International Master's Certificate in Project Management in the past 5 years. The maximum total number of credit hours that may be waived for those who have not completed the Master's Certificate in Project Management through ESI International is 6.

Students must apply for AAS prior to the first day of their first semester in the MSPM program. For example, those admitted to the MSPM program in the spring 2016 semester must submit their AAS application with all supporting documents no later than January 11, 2016. Applications will only be considered when accompanied by appropriate documentation (i.e. transcripts, certificates, syllabi, etc.) and when submitted on or before the deadline.
